COLORS: Primary Colors

1. **Forest Green (#2b7a0b)**: Represents nature, trees, and greenery. This color can be used for main buttons, highlights, or headers.
2. **Sky Blue (#3498db)**: Reminiscent of clear skies and fresh water. Great for active states, links, or secondary buttons.
3. **Warm Earthy Brown (#8b572a)**: Evokes earth, trails, and mountains. Use it for footers, background accents, or headings.

Accent Colors

1. **Moss Green (#6b8e23)**: Complements forest green well. Use this for smaller elements like icons, borders, or button outlines.
2. **Sunset Orange (#e67e22)**: Adds warmth and energy. Perfect for call-to-action buttons or links.
3. **Golden Yellow (#f1c40f)**: Symbolizes sunlight. Works well as a subtle accent for icons, button highlights, or hover states.

Neutral Colors

1. **Dark Slate (#2c3e50)**: A dark, muted color that contrasts well with the natural tones. Great for navigation, headers, and text on light backgrounds.
2. **Warm Beige (#f4e1d2)**: Provides a soft, earthy feel. Ideal for page backgrounds to keep the site light but not too stark.
3. **Muted Stone Gray (#95a5a6)**: Complements earthy colors well and adds a modern touch. Good for secondary text or borders.
